& Co.**

GENERAL NEWS.

New school houses to the value of \$75,000, will be built in San Francisco immediately.

Notes Blumenthal, a trusted employee of the Rothschilds in London, has stolen \$150,000 and disappeared.

There is friction between Germany and Austria-Hungary and negotiations for a commercial treaty have been broken off.

William H. Clary, aged 83 years, is dead at Stockton, Cal. He built the first mining ditch in California, and came to that state in 1840.

There are indications that the immigration of Jews from Russia will be much heavier during the coming year than during the past 10 years.

Two torpedo launches in Portsmouth, England, harbor, blew up at exactly the same moment, from entirely different causes, when one and a fourth miles apart.

Ralph Pulitzer, son of the proprietor of the New York World, has been fined \$500 for violating the Montana game laws. It is his second offense, with the same penalty attached.

Police statistics carry the information that the average age of hoboes—at least those that come under police surveillance—has fallen in the past 20 years from 30 years to 21 years.

Wain Cox, aged 17 years, has been sentenced to life imprisonment at Chicago for highway robbery. He hurt no one, but used a revolver for intimidation, a life offense in Illinois.

Only New York and New Orleans now exceed Galveston in the volume of exports from the United States. Unless the Panama canal proves an equal stimulant to New Orleans' commercial interests there is little doubt that Galveston will be second only to New York in a few years.

NORTHWEST NEWS.

The Congregational church at Kellogg, Idaho, burned November 26. The insurance and the subscriptions secured since are sufficient to rebuild.

The tax levy of Seattle will next year be 14 mills in the old city limits and 13 in the new limits, a raise of 14 mills over last year's levy in both cases.

The Barber Lumber company is building a sawmill seven miles from here in which will be employed 500 men. It will be the largest sawmill in Idaho.

So many parents in Seattle refuse to send their children to school while vaccination is compulsory, that the prosecuting attorney will at once bring a test case.

At Moscow, Idaho, 1150 acres of school land in Latah county, sold November 29 for from \$10 to \$34 per acre, the average being \$20. The sale was public and by auction.

Thirty-seven of the 72 men employed on the government bar bridge Chinook, were discharged December 1. The barge will be refitted this winter and made an oil burner.

The state board of medical examiners of Montana has revoked the certificate of Frank E. Donelson, M. D., because, and only because, he advertised his qualifications as a physician and surgeon.

William Mortimer suicided November 29 at Vancouver, B. C., by cutting his throat with a razor. He leaves a widow with eight small children, who are probably better off, as Mortimer was a drunken improviser.

There are but very few desirable vacant lots left in the residence portion of Pendleton. These we have just listed and the prices are very reasonable.

We have a new list of residences for sale. Come and see us, and look over our list.

We have anything that you want in country property.

E. T. WADE & SON,
Office E. O. Building.

DEEPER PLOWING

COL. R. C. JUDSON URGES
BETTER CULTIVATION.

Crops Grown on the Shallow Plowing Show the Effect of It—In the Palouse Country Ten-Inch Plowing Produces 50 to 55 Bushels Per Acre, While Five and Six-Inch Plowing Produces But 30 to 35 Bushels.

Col. R. C. Judson, industrial agent of the O. R. & N., who has just returned from the East, has made a special study of deep plowing in the various farming sections visited by him, in Nebraska and Kansas, and has also prepared notes on the results in Eastern Oregon and Washington. He has found that the increased crops grown on land plowed eight to 10 inches deep, pays many times over for the extra cost of the deep plowing. It preserves the strength of the soil and stores energy for future crops, that in shallow plowing and slight cultivation passes out by capillary attraction, and is not saved to invigorate the growing crops.

"Side by side in the Palouse country," said Colonel Judson to the East Oregonian yesterday evening, "I have seen crops growing on ground plowed 10 inches deep and on ground plowed but four and five inches deep. On that plowed 10 inches deep, 50 and 55 bushels of wheat was growing. On that plowed but five and six inches deep, there were but 30 to 35 bushels.

"You can distinguish between the 10-inch plowing and five-inch plowing a mile away, by looking at the growing crops. On the 10-inch plowing, the grain will have a dark, thrifty, flourishing appearance, while on the shallow plowing, the stand will be lighter, the color paler, and the appearance of the grain inferior in every way.

"In the northwestern portion of Umatilla county, where your land has increased the yield from 10 bushels to 20 and 25 bushels, deep plowing and better cultivation has caused the improvement. The climate is not changing to that extent. Increased rainfall nor decreased hot weather has not so affected the land. It is simply better farming methods. It is deeper plowing, better cultivation of the summer fallow and a more vigorous policy of discing and harrowing the land.

"In Nebraska, on similar soil to that in parts of Umatilla county, the farmers plow deep, disc the land, roll it and then run a clod masher over it, thus holding every particle of moisture in the soil. Where the soil is so treated, the crops are from 10 to 15 bushels per acre heavier than on the land plowed shallow and more slightly cultivated."

Colonel Judson has statistics on deep plowing methods which he will publish in his forthcoming report on the industrial department of the O. R. & N. This enterprising road is conducting practical experiments in different phases of farming, especially in the arid belt, to prove that the dry land will produce profitable crops, and also to convince farmers that science in farming pays.

His experiments in growing alfalfa on dry land have become a watchword and a household term all over the inland Empire. Alfalfa is growing successfully today, on dry hilltops in Umatilla county, which it was thought formerly would not grow thistles. He believes the deep plowing campaign will bear just as great results as the dry-land alfalfa campaign.

"DAD" LYONS MISSING.

With Him \$2100 Also Went—Last Seen in Spokane.

Spokane, Nov. 30.—Ivan D. Lyons, known throughout Eastern Washington and Northern Idaho as "Dad" Lyons, disappeared here November 17, and the united effort of the police and his friends have been unable to discover any clew to his whereabouts. He had \$2100 when he came to Spokane to buy fixtures for a saloon he was to start near Cottonwood, Idaho. Mr. Lyons has lived in Camas Prairie, Idaho, 20 years.

When he reached here November 14, a stranger with him was trying to sell him a saloon at Edmunds, Wash. The pair got drunk together and that is the last known of either of them. The stranger is supposed to have gone by the name of Morris Rodgers.

"RIP VAN WINKLE."

A Large and Highly Pleased Audience Sees the Play.

"Rip Van Winkle"—there isn't a school boy who does not know this charming story of Washington Irving's, and there isn't a grown-up that hasn't seen the play, but with all of that, it never grows old, and pleases today as it did when Joseph Jefferson made his initial appearance. Thomas Jefferson—son of the man who first played the part of Rip, is today upholding the credit of the Jefferson family in his rendition of the part.

The Frazer theater was crowded last night by lovers of human interest plays, and they were not disappointed with Thomas Jefferson and his excellent company.

The next attraction at the Frazer is "Shore Acres," which comes this evening.

Notice to Artisans.

A special meeting of Alpha Assembly, order of United Artisans, will be held at J. O. O. F. hall Thursday night, for the purpose of greeting Dr. G. C. Eschman, supreme instructor of the order. All members are especially requested to be present.

A Frightened Horse.

Running like mad down the street, dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable salve handy and there's none as good as Bucklen's Arnica Salve. Burns, cuts, sores, eczema and piles disappear quickly under its soothing effect. 25c at Tallman & Co.'s drug store.

Suicide of Old Man.

Redmond, Wash., Nov. 30.—Ernest Schward, aged 50, under arrest charged with incest against his 15-year-old daughter, suicided at home while a deputy sheriff stood guard outside the door waiting for a boat to take the old man to the Seattle jail. He cut his throat from ear to ear with a razor.

Land Scrip for Sale.

Forest reserve scrip for securing title to timbered or agricultural land for sale at lowest market prices. H. M. Hamilton. The Portland, Portland, Or.

New Knox hats, Roosevelt's.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having an Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 30c. in stamps for sample to The Herpicide Co., Detroit, Mich.
A. C. Koepfen & Bros., special agents.

Walters' Flouring Mills

Capacity, 150 barrels a day.
Flour exchanged for wheat.
